1. Basis of presentation - lack of independence

These financial statements have been internally-prepared by Geoscience BC and have not been audited or reviewed by an independent public accountant. These statements are designed for the internal use of Geoscience BC members only and are not necessarily presented in a manner consistent with generally accepted accounting principles.

		<u>16,735,167</u>

In November 2006 Geoscience BC invested an aggregate of \$18.0 million, as to \$8.0 million in three Banker's acceptances (which are of approximately equal amount and which are staggered to mature at 3, 6 and 12 month intervals, respectively), and \$10.0 million to pooled funds managed by Connor, Clark and Lunn Private Capital.

Geoscience BC considers these to be 'available for sale' securities and hence they are required to be carried at current market values. The Connor, Clark and Lunn value is net of current investment management fees charged of \$42,586 and included in the Statement of Operations as an expense.

A total of \$2 million was drawn down from these investments at December 31, 2007. Refer to Note 6.
