## Foreword

Geoscience BC is pleased to once again present results from our scholarship recipients and ongoing projects in our annual *Summary of Activities* publication. Geoscience BC would like to thank all authors and reviewers of the *Summary of Activities* papers for their contributions and RnD Technical for its work in editing and assembling this volume.

Geoscience BC would like to thank all members (corporate, individual, associate and student), project sponsors and advocates for their ongoing support of Geoscience BC's independent public geoscience. Teck Resources Limited is thanked for their sponsorship of the 2024 Geoscience BC Scholarship program, as are the Association for Mineral Exploration British Columbia, Canadian Discovery Ltd. and the Kamloops Exploration Group for their support of this volume. Finally, Geoscience BC would like to express our appreciation for the leaders and volunteers in British Columbia's mineral exploration, mining, clean energy and geological carbon storage sectors who support our organization through their guidance and their use and recognition of the data and information that we collect and publish.

## Contents

### Critical Minerals and Metals

- K.R. Broda, A.E. Williams-Jones and O.V. Vasyukova:**  
Role of alteration in the Alaskan-type Turnagain Complex, north-central British Columbia . . . . . 1
- M.L. Porter, S.L.L. Barker, F. Bouzari, M.A. Rodriguez-Mustafa, N. Moerhuis, D. Guestrin, C. Antsey, R.G. Lee and K.B. Riedell:** Camp Creek copper-molybdenum-(gold) porphyry-alteration mineralogy and geochemistry: exploring for blind copper mineralization in northern British Columbia . . . . . 7
- S. Bowie, C. Mottram, D. Kellett, M. Barrington and C. Pike:** Directly dating molybdenum-copper porphyry and zinc-silver-lead-copper-gold carbonate replacement deposit mineralization in northwestern British Columbia . . . . . 15
- C. Karatas Ahmadli, C. Harraden, S.L.L. Barker, J.R. Lang and M.J. Manor:** Platinum-group element and gold deportment in the Kwanika copper-gold± molybdenum porphyry system, north-central British Columbia . . . . . 27
- J.D. Bhakta, A.R. Chakhmouradian and J.A. Brown:** Carbonatite-associated rare-earth-element mineralization in the eastern part of the Ice River Carbonatite Complex, southeastern British Columbia . . . . . 35

- L. Abdale, J.L. Nelson, L.J. Millonig and L.A. Groat:** Preliminary insights into carbonatite genesis, and future directions using uranium-lead zircon ages and hafnium isotopic signatures of alkaline rocks from the Canadian Cordillera, southeastern British Columbia . . . . . 47

- C.M. Breasley, L.A. Groat, T. Martins and R.L. Linnen:** Tourmaline as a recorder of geochemical evolution and an exploration tool in the petalite-subtype Prof pegmatite, Revelstoke, southeastern British Columbia . . . . . 57

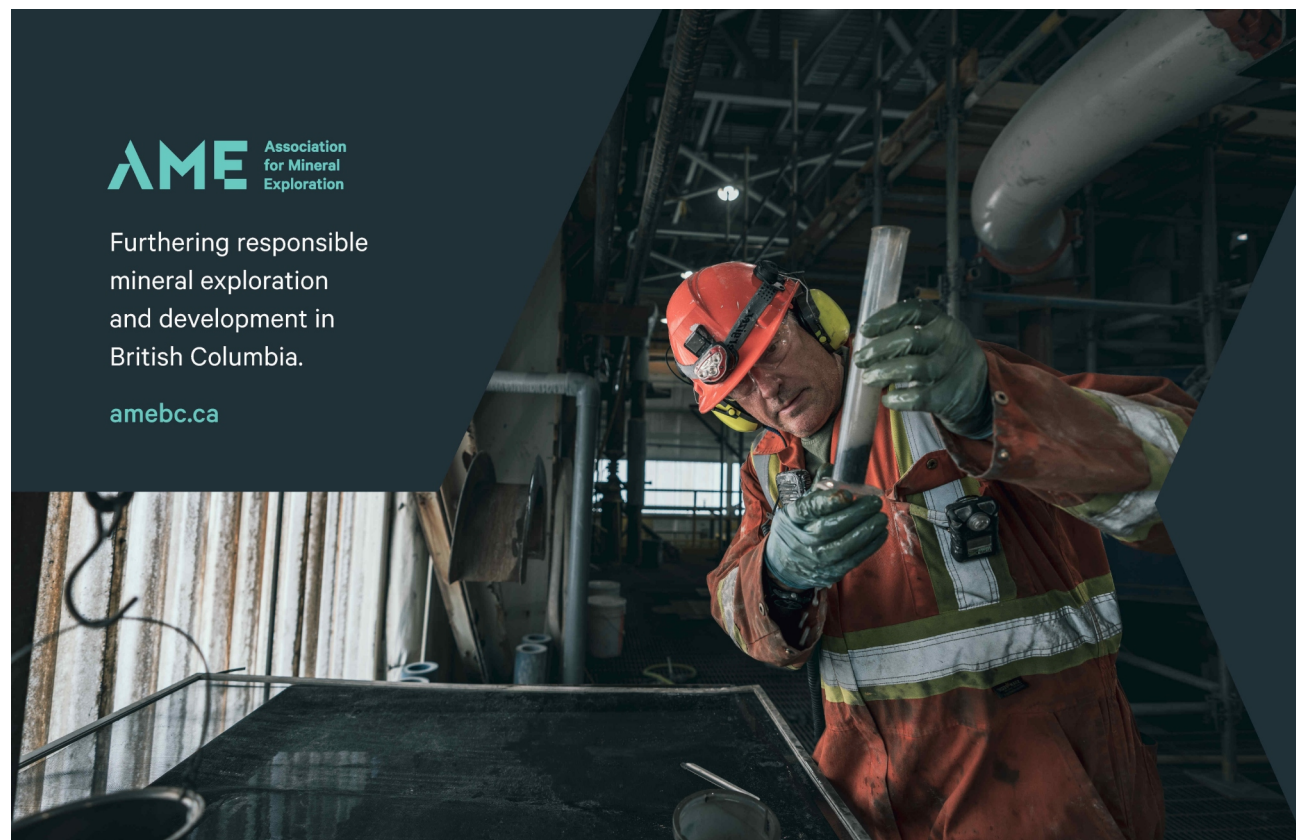

### Cleaner Energy

- H. Yu and W. Zheng:** Experimental research on mineralogical characteristics and mechanical properties of Montney siltstone from northeastern British Columbia using indentation tests and scanning electron microscope-energy dispersive spectrometry analysis . . . . . 67

- T.F. Pinto and E. Enkelmann:** Thermal history of the Liard Basin in northern British Columbia and western Northwest Territories . . . . . 75

### Geological Carbon Capture and Storage (CCS)

- N. Sweet:** Northeast BC Granite Wash Geological Carbon Capture and Storage Atlas . . . . . 83

**AME** Association  
for Mineral  
Exploration

Furthering responsible  
mineral exploration  
and development in  
British Columbia.
